

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Ecofin SICAV - Ecofin Sustainable Global Water Fund - Class Founders GBP Accumulating

(ISIN: LU2066076451) Ecofin Sustainable Global Water Fund (the 'Fund') is a Sub-Fund of Ecofin SICAV (the 'Company'). Lemanik Asset Management S.A. is the Management Company (the 'Management Company') to the Fund.

Objectives and Investment Policy

- The Fund's investment objective is to seek total return by investing primarily in equity securities of any capitalization that are publicly traded on a regulated exchange, consisting of common stock.
- The Fund is active and managed without any reference to a benchmark. The Sub-Investment Manager has discretion over the composition of its portfolio subject to this objective and investment policy.
- The Fund will invest primarily in companies located mainly in the United States of America, Asia and Europe that design, build, own and operate water infrastructure, as well as companies that provide the necessary equipment and services to transport, treat and test water. Generally, at least 70% of the Fund's net assets will be invested in companies that derive a majority of their business from segments of the water value chain and the remaining 30% in companies that derive a portion of their business from segments of the water value chain.
- The Fund's Sub-Investment Manager believes that companies with a thorough understanding of, and strategy around, environmental, social and governance (ESG) issues are more capable of mitigating risks and enhancing their performance over the long-term. Knowledge of ESG factors and risks and active ownership are, therefore, integral to the Sub-Investment Manager's investment philosophy and process.
- The Fund may invest in preferred equity, convertible securities, rights, warrants and depositary receipts of companies that are organized as corporations. It may also write call options on securities, but will only do so on securities it holds in its portfolio.
- The Fund may invest up to 20% of its total assets in cash, cash-equivalents, and high-quality, short-term debt securities and money market instruments for (i) temporary defensive purposes in response to adverse market, economic or political conditions, and (ii) to retain flexibility in meeting redemptions, paying expenses and identifying and assessing investment opportunities.
- The Fund may use derivatives only for efficient portfolio management purposes.
- The Fund may borrow cash provided that such borrowing is on a temporary basis and represent a maximum of 10% of its net assets.
- The Fund will invest to a considerable extent in securities which are not denominated or quoted in EUR, the Fund's base currency, and therefore movements in exchange rates will have an effect, favorable or unfavorable, on the value of the Fund and on the return on an investment in the Fund's shares. Investment instruments which are not denominated in EUR might be hedged against exchange rate risks.
- Sale of shares in the Fund can be made on a daily basis. Subscription and redemption requests can be made to the administrative agent before [5.00 pm CET] on any valuation day. Administrative agent: BNP Paribas Securities Services, Luxembourg Branch, 60 avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg
- The Share Class does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of your shares.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and Reward Profile

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- This Fund is in category 6, since the share price has a high volatility, therefore the risk of loss as well as the expected reward can be high.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

- Currency risk: Variations in the exchange rates between the base currency of the Fund's underlying investments and the currencies of the Share classes may adversely affect the Fund's performance.

- Equity risk: Equity securities may fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions, and include the possibility of sudden or prolonged market declines.
- ESG risk: Securities of companies with ESG practices may shift into and out of favour depending on market and economic conditions, and the Fund's performance may at times be better or worse than the performance of funds that do not use ESG or sustainability criteria.
- The concentration of the Fund on a given country implies the risk that the events concerning the given country may significantly and negatively affect the value of the whole portfolio of the Fund.
- Operational risk: The Fund may experience material losses as a result of human error, system and/or process failures, inadequate procedures or controls.
- Investment Manager risk: The value of your investment may vary with the effectiveness of the Investment Manager's research, analysis and allocation among portfolio securities. If the strategies employed do not produce the expected results, the value of your investment could be diminished, and the Fund could underperform other funds with similar objectives.

The Fund's prospectus includes a detailed discussion of the risks associated with an investment in the Fund, which must be considered carefully before investing.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment. The ongoing charges figure for the respective share class is capped at 1.35% of the average net asset value ("Capped Figure"). Any ongoing charges in excess of the Capped Figure will be borne by the Investment Manager and will not be charged to the Fund. The ongoing charges figure may vary from year to year. It is possible that the actual ongoing charges figure is lower than the Capped Figure.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

The ongoing charges figure is based on expenses for the year ending 31 December 2020.

This figure may vary from year to year. It excludes:

- Performance fees.
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another Fund.

For more information on charges, please see the 'Charges and Expenses' section of the Prospectus.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.86%
Charges taken from the Fund under certain specific conditions	
Performance fee	None
