Ecofin Sustainable Global Water UCITS Fund

As of 31 March 2022

Represents the aggregate rating of ESGWU's holdings as of 3/31/2021. Certain information ©2022 MSCI ESG Research LLC. Reproduced by permission; no further distribution permitted. See ast page of the factsheet for additional information on the rating.

The Ecofin Sustainable Global Water UCITS Fund invests in companies across the globe and throughout the water value chain that we believe are in a position to benefit from the pursuit to solve the water supply/demand imbalance. Through our in-house research coverage of companies across the entire water value chain, Ecofin's investment process uses a bottom-up, fundamentals-based approach.

Fund differentiators

- Purest water exposure among competitor funds
- · Leading exposure to secular growth in water technology
- Differentiated impact reporting with portfolio holdings serving over 2.5 billion people, treating and distributing over 16 trillion gallons of water and wastewater, and investing \$6.5B in water infrastructure and technology

Portfolio managers

Nick Holmes, CFA

- Managing Director and Portfolio Manager
- 12 years experience
- President of the Ecofin Sustainable and Social Impact Term Fund
- Yale University, BA; University of Kansas, MBA
- Evan Lang, CFA Director and Portfolio Manager 8 years experience
- Texas Christian University, BA

• Proven investment process, skill and history

Investment Committee

Matt Breidert - 28 years experience Nick Holmes, CFA - 12 years experience Jean-Hugues de Lamaze - 32 years experience Evan Lang, CFA - 8 years experience James Mick, CFA - 22 years experience Brent Newcomb - 18 years experience

The Ecofin Sustainable Global Water UCITS Fund performance includes the effect of ongoing costs (including the management fee) which are capped at 1.6% per annum for institutional investors and 1.35% for Founder investors, whereas the S&P Global Water (Euro) Net Total Return Index (which provides liquid and tradeable exposure to 50 companies from around the world that are involved in water related businesses) and the S&P Global Infrastructure (Euro) Net Total Return Index (which is designed to track 75 companies from around the world chosen to represent the listed infrastructure industry while maintaining liquidity and tradability) do not apply a corresponding deduction for ongoing costs of a fund. (The performance of an index is generally presented on a total return basis, i.e., assuming reinvestment of dividends net of withholding taxes using the tax rates applicable to non-resident institutional investors.)

Neither the S&P Global Water (Euro) Net Total Return Index or the S&P Global Infrastructure (Euro) Net Total Return Index are specifically referred to in the Prospectus of the fund, and shall not be considered as a benchmark in the sense of the Benchmarks Regulation, and Ecofin does not give any representation or warranty with its fitness for a particular purpose in comparative performance.

IMPORTANT NOTICE

Investments in the Ecofin Sustainable Global Water UCITS Fund ("Fund") should only be made following receipt of a copy of the full Prospectus, which includes Supplement and relevant KIID which may be obtained by contacting the Fund's Management Company, Lemanik Asset Management S.A or the Fund's local agent in the countries in which the Fund is passported/authorised or on the Ecofin website.

Ecofin Advisors, LLC ("Ecofin U.S.") is the adviser to the Fund. The Fund may not be offered, sold, or delivered directly or indirectly in the United Stated or to or for the account or benefit of any U.S. persons defined in the Securities Act of 1933 as amended. The Company has not been and will not be registered under the 1940 Act since Shares may only be sold to U.S. Persons who are "qualified purchasers", as defined under Section 2(a)(51) of the 1940 Act and the rules promulgated thereunder. Accordingly, each subscriber for Shares that is a US Tax-Exempt Investor will be required to certify that it is an "accredited investor" and a "qualified purchaser," in each case as defined under the US federal securities laws.

This document does not constitute or form part of any offer to issue or sell, or any solicitation of any offer to subscribe or purchase, any shares in the Fund nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract thereof. Recipients of this document who intend to apply for or purchase shares are reminded that any such application or purchase may be made solely on the basis of the information and opinions contained in the Fund Prospectus and KIID, which are available on request and on Ecofin's website, which may be different from the information and opinions contained in this document.

MSCI ESG Research LLC's ("MSCI ESG") Fund Metrics and Ratings (the "Information") provide environmental, social and governance data with respect to underlying securities within more than 31,000 multi-asset class Mutual Funds and ETFs globally. MSCI ESG is a Registered Investment Adviser under the Investment Advisers Act of 1940. MSCI ESG materials have not been submitted to, nor received approval from, the US SEC or any other regulatory body. None of the Information constitutes an offer to buy or sell, or a promotion or recommendation of, any security, financial instrument or product or trading strategy, nor should it be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. None of the Information can be used to determine which securities to buy or sell or when to buy or sell them. The Information is provided "as is" and the user of the Information assumes the entire risk of any use it may make or permit to be made of the Information.

The MSCI ESG Fund Ratings is designed to assess the resilience of a fund's aggregate holdings to long term ESG risks. Highly rated funds consist of issuers with leading or improving management of key ESG risks.

- AAA, AA: Leader- The companies that the fund invests in tend to show strong and/or improving management of financially relevant environmental, social and governance issues. These companies may be more resilient to disruptions arising from ESG events.
- A, BB, BB: Average- The fund invests in companies that tend to show average management of ESG issues, or in a mix of companies with both aboveaverage and below-average ESG risk management.
- B, CCC: Laggard- The fund is exposed to companies that do not demonstrate adequate management of the ESG risks that they face or show worsening management of these issues. These companies may be more vulnerable to disruptions arising from ESG events.

The Fund ESG Rating is calculated as a direct mapping of "Fund ESG Quality Score" to letter rating categories.

| • 8.6- 10: AAA | • 7.1- 8.6: AA |
|----------------|-----------------|
| • 5.7- 7.1: A | • 4.3- 5.7: BBB |
| • 2.9- 4.3: BB | • 1.4- 2.9: B |

• 0.0- 1.4: CCC

The "Fund ESG Quality Score" assesses the resilience of a fund's aggregate holdings to long term ESG risks. Highly rated funds consist of issuers with leading or improving management of key ESG risks, based on a granular breakdown of each issuer's business: its core product or business segments, the locations of its assets or revenues, and other relevant measures such as outsourced production. The "Fund ESG Quality Score" is provided on a 0-10 score, with 0 and 10 being the respective lowest and highest possible fund scores.

The "Fund ESG Quality Score" is assessed using the underlying holding's "Overall ESG Scores", "Overall ESG Ratings", and "Overall ESG Rating Trends". It is calculated in a series of 3 steps.

Step 1: Calculate the "Fund Weighted Average ESG Score" of the underlying holding's "Overall ESG Scores". The Overall ESG Scores represent either the ESG Ratings Final Industry-Adjusted Score or Government Adjusted ESG Score of the issuer. Methodology for the issuer level scores are available in the MSCI ESG Ratings Methodology document.

Step 2: Calculate adjustment % based on fund exposure to "Fund ESG Laggards (%)", "Fund ESG Trend Negative (%)", and "Fund ESG Trend Positive (%)".

Step 3: Multiply the "Fund Weighted Average ESG Score" by (1 + Adjustment %).
